**Subject:** Fraudulent use of Shekoy email address – Forged bank account number

Dear Shekoy Chemicals Europe Customers and Business Partners,

This letter to inform you that we, Jiangsu Yoke Technology and Shekoy Chemicals Europe and US subsidiaries, have recently been the target of a cyberattack.

In a nutshell, the fraudulent conduct consisted in sending an email to some of our customers using an existing Shekoy email address or creating email addresses extremely similar to the ones we use. The content of the fake message is telling you that we, Shekoy Chemicals, have encountered problem with our existing bank and that, as from now on, all invoices should be paid to a new bank and account number. This is absolutely untrue.

At the moment, Shekoy Chemicals Europe continues to use the same banking institution as well as remittance address for payment as we have been doing for years. We have no intention of making any change. Should we do it in the future, you would be informed by postal service followed by a telephone call.

May you receive such a fraudulent email in the future, please do not reply and call-in your usual Shekoy Chemicals Europe contact.

Thank you for your understanding,

Sincerely Yours.

**Shekoy Chemicals Europe**  
Rue Grandbonpré 11  
B-1348 Louvain-la-Neuve  
Belgium
